

Blue Sky Bridge Presents: **School-Based Prevention Education Program**

In the United States, one in every ten children will be victims of child sexual abuse before reaching age eighteen. Over the next several weeks, Blue Sky Bridge, a child advocacy center serving Boulder County, will be speaking to school staff, third grade students, and parents/guardians.

Our goal is to prevent sexual abuse of children through greater awareness and understanding.

Please join us for a special presentation especially for PARENTS. You will learn about the education program being presented to third graders, as well as valuable information about how you can help keep your child safe.
